Company Profile About CHINT Group

 **21.54 Billion USD**
2023 CHINT Group Revenue

 **50000+**
Employees Worldwide

 **140 +**
Countries and Regions Where Businesses Cover

 **3.02 Billion USD**
PV Modules Revenue in 2022

 **8.3 Million Tons**
CO2 Emissions Reduced per Year

 **8.3 Billion kWh**
Green Electricity Provided for the Whole Society per Year

Founded in 1984, CHINT Group Co., Ltd. (hereinafter referred to as "CHINT") is a global leading smart energy solutions provider. Over the past 40 years since its establishment, CHINT has always focused on industry and brand building, deeply implemented the strategy of "Industrialization, Technologization, Internationalization, Digitalization and Platformization", and formed three major segments of "Green Energy, Intelligent Electric and Smart Low-carbon" and two major platforms of "CHINT International Platform and Sci-tech Innovation Incubation Platform", and endeavored to build up "211X" Management Capabilities, including Intelligent Electric and New Energy Industry Cluster Capabilities, Regional Localization Capability, Middle and Backstage Integration Capability, and Innovation Incubation Capability. Its business covers more than 140 countries and regions, with 4 global R&D centers, 6 international marketing regions, over 25 domestic and international manufacturing bases, and a global workforce of over 50,000 employees. In 2023, CHINT's operating revenue reached USD 22.1 billion, and CHINT has been listed among the Top 500 Chinese Enterprises for more than 20 consecutive years. CHINT Electric (stock code: 601877) is the first A-share listed company in China with LV electrical appliances as its main business.

CHINT continuously strengthens its "One Cloud & Two Nets" strategy, with "CHINT Cloud" as the carrier of intelligent technology and data applications and takes the lead in building the Energy Internet of Things (EIoT) and Industrial Internet of Things (IIoT) platforms, striving to be the explorer, advocator, and practitioner in the world of low-carbon development. With the "Green Energy, Smart Network, Load Reduction, and New Storage" service systems, CHINT sets up a platform-based enterprise, and builds a regional smart energy industry ecosystem. It provides a total energy solutions package for public institutions, industrial, commercial, and end users to achieve energy conservation, carbon reduction, and accelerate the energy transition.

Under the CHINT Group, Astronergy is an intelligent manufacturing enterprise focusing on photovoltaic cells and modules. Founded in 2006, it is one of the earliest private enterprises in China to set foot in the photovoltaic field. And it is a pioneer in n-type TOPCon PV modules.

Committed to be the most competitive photovoltaic module supplier worldwide, Astronergy sets its mission to create a sustainable and net-zero carbon world with solar power. Focusing on R&D, production and sales of high-efficiency crystalline silicon PV cells and PV modules, Astronergy has continuously launched the ASTRO series high-efficiency, high-quality, high-performance modules. Big-size wafer tech enables both bifacial and monofacial ASTRO series modules could be perfectly applied in various scenarios such as utility-scale power stations, commercial &

industrial (C&I) PV systems and residential PV systems. Pioneered the mass production of n-type TOPCon PV modules and Astronergy keeps leads in n-type TOPCon PV cell tech.

With business footprints in over 140 countries and regions, Astronergy has established intelligent manufacturing bases at Haining in Zhejiang, Yancheng in Jiangsu, Jiuquan in Gansu, Songyuan in Jilin, Fengyang in Anhui, Yiwu in Zhejiang, Yanchi in Ningxia, Yueqing in Zhejiang and in Thailand. It has also set up branch companies and sales centers in countries like Germany, Spain, the Netherlands, Poland, the United States, Canada, Brazil, Australia, Singapore, Japan, and Thailand, achieving great sales performance of Astronergy PV products in international mainstream markets of Europe, North America, Latin America, and Asia Pacific.

ZERO BY 2050 Carbon Neutrality

Globalization

Astronergy product sales footprint covers more than 140 countries around the world. And it has set up branches in the United States, Germany, Australia, Canada, Singapore, Thailand, Japan and other countries to help the process of globalization and win the full trust of customers and good reputation in the industry with credibility.

Global Headquarters
Haining, China

Global R&D Center

Milestones

Brand Value

 <p>For 7 years, Astronergy has been honored by PVEL as "TOP Performer" among module manufacturers</p>	 <p>Astronergy has won 8 awards of "All Quality Matters" from TÜV Rheinland</p>	<p>Tier 1 BloombergNEF</p> <p>For a long time, Astronergy has been listed as the world's Tier 1 PV Module Maker by Bloomberg NEF</p>
 <p>TOP 10 PV Modules Suppliers released by S&P Global</p>	 <p>No. 1 in "China's Top 100 Private Enterprises with Social Responsibility" in 2022</p>	 <p>No. 82 in "2022 China's Top 500 Private Enterprises"</p>
 <p>No. 235 in "2021 Top 500 Chinese Enterprises"</p>	 <p>China Industry Award</p>	 <p>China Charity Award</p>

Bankability

In the annual "PV Module and Inverter Bankability" released by Bloomberg New Energy Finance (BNEF), Astronergy bankability rating has risen from seventh place on the 2022 list to sixth place on the 2023 list. And Astronergy has been in the upper for multiple consecutive quarters in PV ModuleTech bankability ratings report for 2023 and is rated as "A" in Q1 2024.

Intelligent Manufacturing

 **Pioneer and Explorer of Smart Manufacturing in PV Industry**
Astronergy builds the first PV "Intelligent Manufacturing" transparent factory

With the automatic production line and highly information-integrated production mode, Astronergy enables the monitoring and traceability in the production process from raw materials to finished products and maintains its leading position in smart manufacturing.

 **1st to Achieve AI Automatic Detection of EL Defects**

- * Supported by Big Data
- * Localization of Production Equipment
- * Fully Automated Production
- * AI Quality Detection
- * Automatic Monitoring of the Entire Process
- * Automatic Batching by Unmanned Vehicles

 **Outstanding in Intelligent Manufacturing**

- * Sino-German Intelligent Manufacturing Demonstration Base
- * Intelligent Photovoltaic Pilot Demonstration Enterprise

R&D Strength

Global R&D Cooperation

Explore the "industry university research" integration mode with Shanghai Jiao Tong University, Zhejiang University, Zhejiang University of Technology, Hangzhou University of Electronic Science and Technology, New South Wales, Chinese Academy of Sciences Ningbo Institute of Materials and other universities and research institutions, integrate global innovation resources, and promote enterprise R&D innovation and talent training. Deeply cooperate with domestic and foreign frontline equipment and material manufacturers, carry out collaborative innovation in the industrial chain, and promote industry material innovation and industrialization.

Accreditation Laboratory Qualifications

With strong testing capabilities, Astronergy has obtained the qualifications of CNAS Laboratory, CSA Witness Laboratory, TÜV Rheinland Witness Laboratory, Intertek "Satellite Program" Laboratory and other qualifications, and conducts more than 30 rigorous tests internally for PV modules.

Scientific Research Achievements

273 Utility Model Patents

77 Invention Patents

11 Appearance Design Patents

Leading in Cell & Module Efficiency

The average efficiency of mass-production n-type TOPCon 4.0 cells reaches **26.3%**
The average efficiency of pilot line-production n-type TOPCon 4.0 cells achieves **26.6%**,
and the highest efficiency hits **26.9%**

Scientific Projects

The number of R&D personnel with intermediate titles and above at the national level accounts for more than **20%+**

Launched 2 Provincial-Level Frontier Innovation Projects (From 2023 to 2024)

Talent Declaration

Zhejiang Core Energy's Key Cooperative R&D Projects

Jiaxing Leading Team on Innovation

Haining Demonstration Project on Collaborative Innovation

Our Products — n-type TOPCon Ultra-High Power Modules

Astronergy is a pioneer in n-type TOPCon PV modules.

ASTRO N series adopts n-type TOPCon PV cell technology, featured advanced technologies such as multi-busbar (MBB) half-cut wafer (N7 adopts the latest SMBB half-cut wafer), non-destructive cutting, high-density encapsulation, etc., to achieve advantages such as high power, high efficiency, high reliability, high power generation per watt, low BOS and low LCOE, and can meet the needs of multiple scenarios such as utility-scale power plants, commercial and industrial distributed power plants, and residential power plants.

- 15** Years Product Warranty Period
- 30** Years Power Warranty Period
- ≤1.0%** First-year Power Degradation
- ≤0.4%** Annual Power Degradation

ASTRO N7
 625W / TOPCon 4.0 / Rectangular Wafer
 SMBB Tech / Light Redirecting Film For Dual-glass Products

Application Scenarios:
 Utility-scale Power Stations and Distributed Power Stations

ASTRO N5
 600W / 183R Wafer

Application Scenarios:
 Utility-scale Power Stations and Distributed Power Stations

ASTRO N7s
 460W / TOPCon 4.0 / Rectangular Wafer
 ZBB-TF Tech

Application Scenarios:
 Residential Rooftop Solar Power Systems and C&I Distributed Solar Power Systems

ASTRO N5s
 445W / 183R Wafer

Application Scenarios:
 Residential Photovoltaic Rooftops

1050MW ☰ Panjiang Utility-scale Solar Plant
📍 Guanling county, Guizhou province, China

50MW ☰ Barreiras Project
📍 Brazil

15MW ☰ Utility-scale Solar Plant
📍 Gelderland, Netherlands

70MW ☰ Utility-scale Project in Zhangjiakou
📍 Zhangjiakou, Hebei Province, China

132MW ☰ Claresholm Solar Farm
📍 Southern Alberta, Canada

200MW ☰ Forest-Solar Hybrid Power Station
📍 Jiangshan, Quzhou, Zhejiang Province, China

89MW ☰ Goonumbla Project
📍 Australia

310MW ☰ China's First Sand-Solar Hybrid Power Station
📍 Kubuqi, Inner Mongolia, China

550MW ☰ The Largest Fishing-Solar Hybrid Project in Asia
📍 Wenzhou, Zhejiang Province, China

165MW ☰ Benban Solar Park Project
📍 Egypt

48.5MW ☰ Insua Power Station
📍 Portugal

Applied Cases Utility-scale PV Power Stations

154.4MW Germany Döllen Solar Farm
Brandenburg, Germany

3MW Depot Park-Sacramento, CA
